

ADDENDUM

Addendum: Preconception and prenatal testing of biologic fathers for carrier status; Carrier screening in individuals of Ashkenazi Jewish descent; Carrier screening for spinal muscular atrophy

Jeffrey S. Dungan, ACMG Professional Practice and Guidelines Committee

Addendum to the following documents: “Preconception and prenatal testing of biologic fathers for carrier status.” Beth A. Pletcher, MD and Maureen Bocian, MD. *Genetics in Medicine* 8:134-135; <https://doi.org/10.1097/01.gim.0000200948.58427.e2>; published February 2006.

“Carrier screening in individuals of Ashkenazi Jewish descent.” Susan J. Gross, MD, Beth A. Pletcher, MD, and Kristin G. Monaghan. *Genetics in Medicine* 10:54-56; <https://doi.org/10.1097/GIM.0b013e31815f247c>; published January 2008.

“Carrier screening for spinal muscular atrophy.” Thomas W. Prior, PhD. *Genetics in Medicine* 10:840-842; <https://doi.org/10.1097/GIM.0b013e318188d069>; published November 2008.

ARTICLE INFO

These documents were retired by the ACMG Board of Directors as of July 14, 2022 with the following addendum.

Article history:

Received 19 July 2022

Accepted 20 July 2022

The Professional Practice and Guidelines Committee members concluded these documents are superseded by a newly drafted practice resource. The salient details are now incorporated in the “Screening for autosomal recessive and X-linked conditions during pregnancy and preconception: a practice resource of the American College of Medical Genetics and Genomics (ACMG)” document.¹

Conflict of Interest

The authors declare no conflict of interest.
